RaceHub Version 2.5

Version 2.5.3

Released: February 14, 2024

New or changed functionality

RaceHub

Area	Description	ID
General	Expanded and improved the log files to help debugging of issues in the future.	-

Bug fixes

Area	Description	ID
Settings	While introducing an easy way to zip RaceHub's log files in version 2.5.2 we accidentally introduced a bug, that made the feature unusable. This bug has been solved so the feature is now working.	2013

Version 2.5.2

Released: January 24, 2024

New or changed functionality

RaceHub

Area	Description	ID
General	Generate a compressed ZIP file of the current RaceHub log files. The file is used to improve debugging of issues in the future.	-
Miscellaneous	RaceHub's logs have been expanded to include more debug information, and it will now be saved for up to a month. This is done to improve debugging of issues in the future.	1955

Bug fixes

Area	Description	ID
Miscellaneous	While introducing RaceHub updates through RaceHub in version 2.5 we accidentally introduced a small bug. If RaceHub is running on your PC while we release the new RaceHub then RaceHub will try to download a wrong RaceHub version when the update procedure is initiated. This is no longer the case.	1936
Miscellaneous	Improved how updating RaceHub is handled if the PC is disconnected from the internet.	1900

Version 2.5.1
