New or changed functionality

RaceHub

Area	Description	ID
Game Setup	Added support for more Project Motor Racing telemetry data	3422

Bug fixes

Area	Description	ID
Game Setup	Fixed some bugs in how Project Motor Racing's telemetry data is handled	3422
LED	Fixed a bug that prevented the user from changing the color of the LED strips under specific circumstances	3427
Pedals	Fixed a bug that made the pedal image in RaceHub black	3407

Version 4.4

Released: November 24th, 2025

New or changed functionality

RaceHub

Area	Description	ID
Game Setup	Support for Project Motor Racing	3319
Game Setup	Support for AC Rally <i>Please note that we are still working on fixing a bug where button 135 is spamming, especially when mapping the buttons. A workaround is to close RaceHub while mapping the buttons and reopen RaceHub once this is done.</i>	3358
Game Setup	Support for Wreckfest 2	2921
Miscellaneous	Since Microsoft ended support for Windows 10, so will we. This and future releases will only support Windows 11. The releases will most likely still work on Windows 10, but we will no longer test on Windows 10, and bugs will only be solved if they are present on Windows 11.	-

Bug fixes

Area	Description	ID
Steering wheel	Fixed a bug where latched buttons are not mapped correctly on Forte Formula Pro steering wheels	3384
Game Setup	Fixed a bug where telemetry data was missing for Forza Motorsport	3376
Game Setup	Updated the Le Mans Ultimate and rFactor 2 plugin	-
Miscellaneous	Smaller user interface improvements	-
