

645LT - SFF AIO CPU Liquid Cooler

Product Overview

The 645LT all-in-one (AIO) CPU liquid cooler was built specifically for Small Form Factor (SFF) systems. Crucial feedback from the dedicated SFF PC community helped our engineers produce a 92mm AIO that fits elegantly into small scale PCs to boost performance for gamer and enthusiasts.

Product Features

- DAN Cases-certified
- 92mm Radiator Small Form Factor AIO
- Gen6 Pump Technology
- Unique 90° bends where tubes meet radiator for space savings
- Increased tube lengths for ease in mounting

Specifications

GENERAL

Pump Speed:	2800RPM
Working Fluid:	Mix of Propylene Glycol and Water
Operating Liquid Temp:	60°C Max
Operating Air Temp:	5°C ~ 35°C
Weight:	465g
Cold Plate:	Asetek Gen6 cold plate
CPU Socket Support:	Intel: LGA 115x,1366, 2011, 2011-3; 2066 AMD: AM4

DIMENSIONS

Pump & Cold Plate Height	29.8mm
Heat Exchanger Dimensions:	118 x 97 x 35mm
Fan Support:	1 x 92mm

ELECTRICAL

Rated Voltage:	12VDC
Rated Power:	3.9W
Power Cable:	3pin 300+/- 20mm
Cable Connector:	3pin

SPECIAL FEATURES

Support:	DAN Cases-certified
Tubes:	90° connectors
Tubes:	250mm
Radiator:	92mm radiator
